

Many paths to net zero

Findings from multi-country research on green buildings

20 July 2021

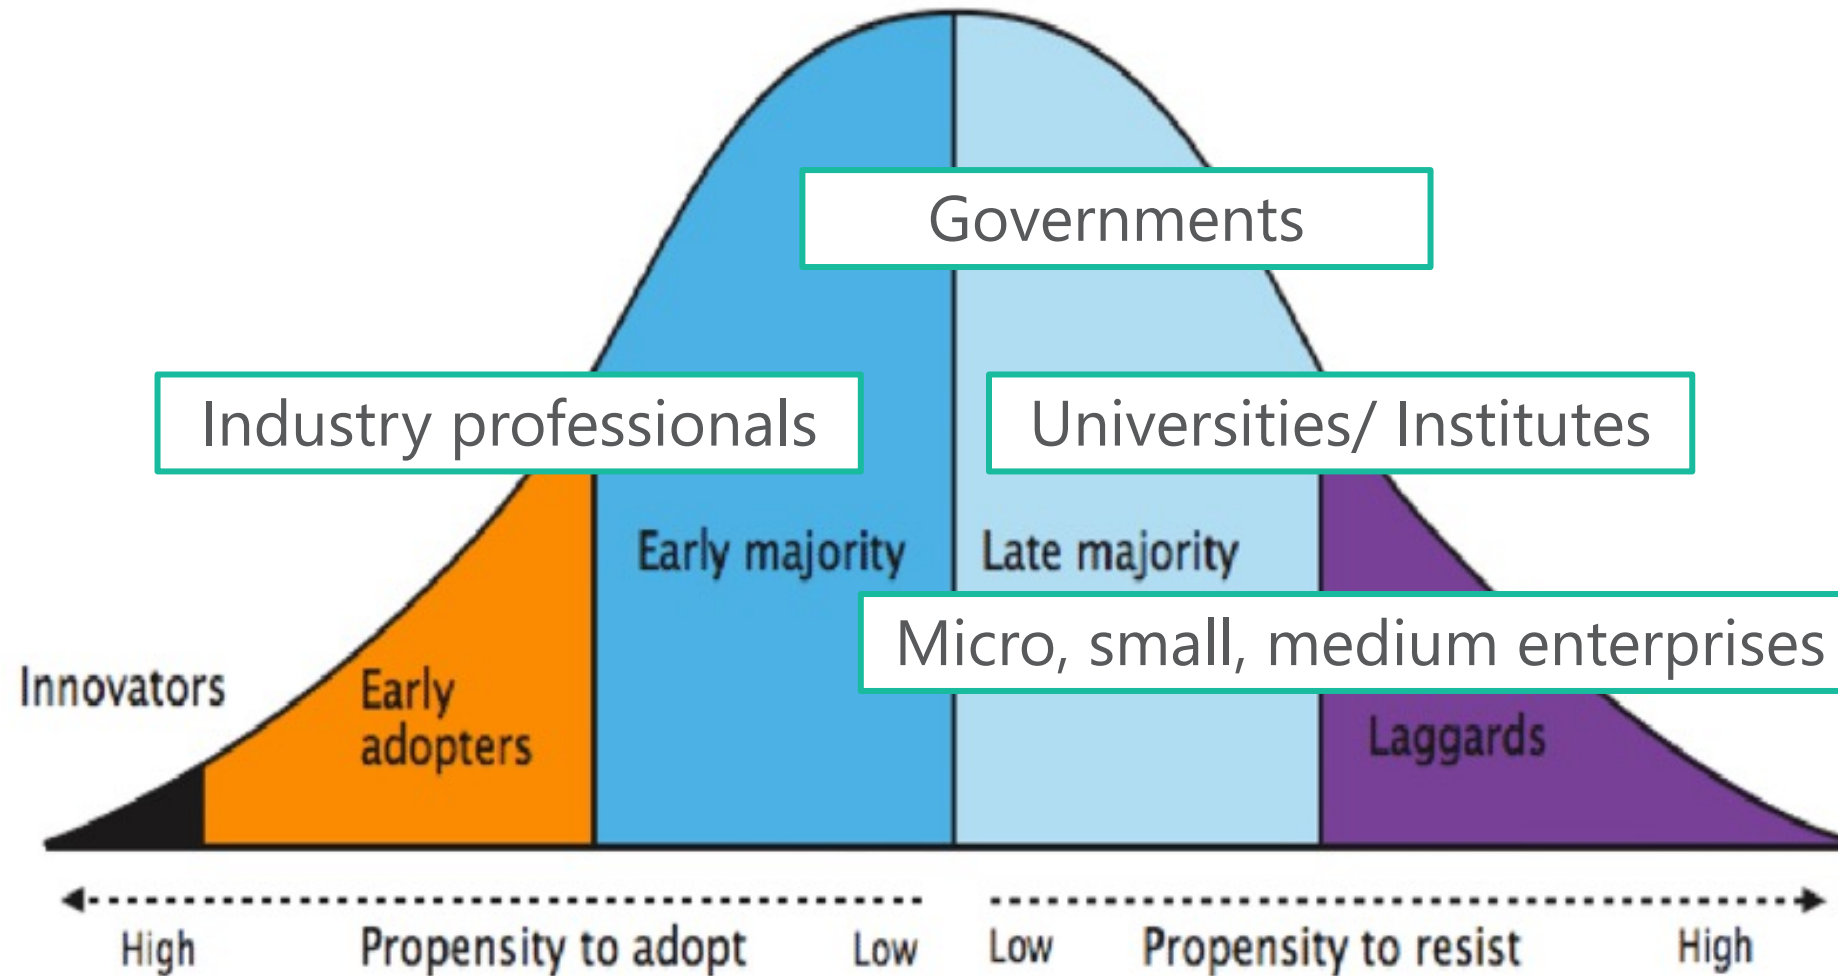

Country green building overview

	Fiji	Guyana	Mongolia	Philippines	Rwanda	Uganda	UAE
Mandatory green building standards	X	X	X	X	☑	X	Partial
Voluntary green building standards	X	X	X	☑	X	X	Partial
No. or certified green buildings*	0	1	1	182 (11)**	0	0	1,141

* Data from GBIG.org, based on LEED, BREEAM, local certification programs.

** IFC EDGE certification

Pace of adoption of green buildings

Investor-led

Industry-led

Community-led

Government-led

Strategies towards green buildings

Start low, broad compliance
Modern materials, technologies
Support for low-income

Start high, slow implementation
Indigenous materials, construction
Lower standards for low-income
